PRODELTA MST

MULTI SOLUTION TOOL
Optimizing Costs in the Asset
Retirement Process

INTRODUCTION

ProDelta Multi-Solution Tool (MST) was developed with the optimizing costs in mind by completing multiple scopes of work in a single mobilization.

Based in Fort St. John, BC, ProDelta MST is one of the most efficient tools in the Asset Retirement Obligation (ARO) Process.

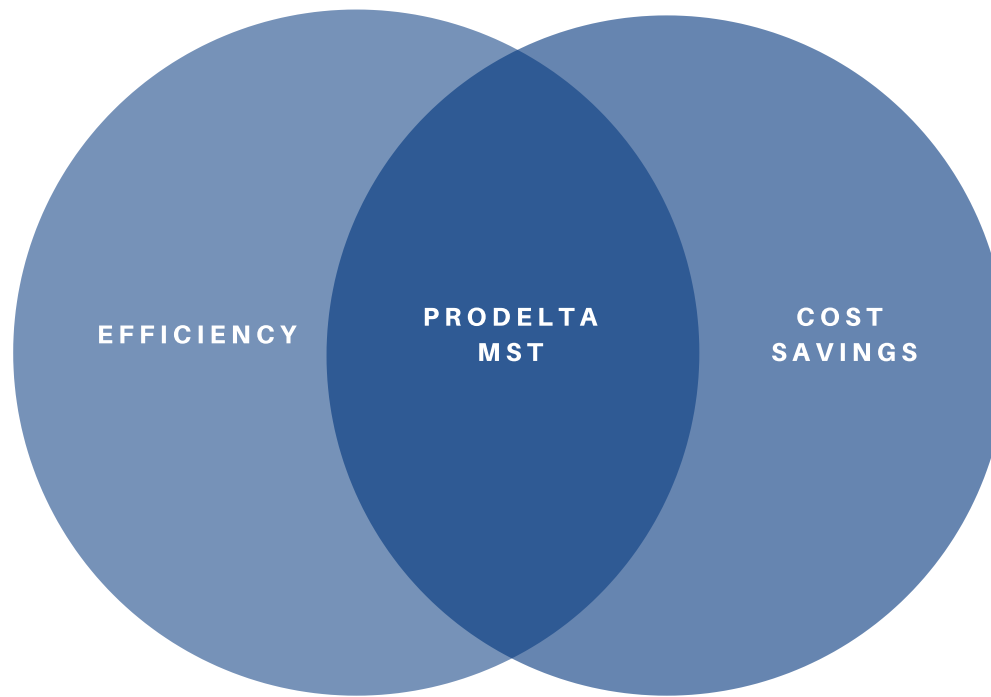

ProDelta Innovates to Save You Money

Through innovation, ProDelta's self supporting crew can complete the following in a single mobilization:

- Extended Reach (Background, Sumps, Flare Pits)
- Drill Up to 50 feet
- Access Repairs

- Well Centre Cut/Cap
- Decommissioning
- Pile Removal
- Small Remediation
- Solid Stem Auger
- Snow Removal

SAFETY FEATURES

- In addition to the innovation focus on efficiency, ProDelta MST Is equipped with unique safety features not found in a common drilling solution.
- Articulation Mast For Clear Operator Visibility
- Auger Holder to Mitigate Tripping Hazards
- Remote Hydraulic Clamp for Auger Tripping
- Real Time Telemetry For Auger Pull

Case Study

ProDelta recently completed a project in NEBC which was winter access only approximately five (5) hrs NEBC.

SCOPE OF WORK FOR TWO (2) SITES

- Decommission Well Facilities
 - Above Ground Storage Tank
 - Above Ground Piping/Building
